

Andrew Hancovsky

**Secretary
Plumbers Local 55 Pension Fund
Chagrin Falls, Ohio**

Drew Hancovsky is a dedicated advocate and certified master trustee for member benefits with over eight years of service as treasurer for the Local 55 political task force and six years as both a pension trustee and DCRP trustee. Throughout his career, Drew has championed initiatives that directly enhance the financial well-being of union members. As secretary of the pension fund, he played a pivotal role in unfreezing the pension plan and merging it with the International Pension Fund, resulting in securing a stronger, more sustainable benefit for members. This strategic decision involved him stepping down from his trustee secretary role for the greater good. His passion for delivering the best benefits possible and being a voice for the union members to ensure their needs are prioritized led to the introduction of the Roth IRA elected deferral option for the membership. Drew also spearheaded maximizing deferral contribution rates to the IRS limit, providing members with increased flexibility and long-term savings potential for their future. His unwavering commitment to supporting the trades to excellence extends beyond financial benefits. Outside of his union work, Drew is the CEO and founder of Dreema Group, where he focuses on investments and transforming properties in Cleveland, Ohio into "Your Home Away From Home" accommodations for traveling tradespeople. Drew's dedication lies in delivering top-notch benefits and being a visionary, innovative leader, passionately working to secure a more prosperous future for the people he serves and drive success in his community.
