

**Michael Le Coche, CFA**

**Vice President, Research and Predictive Analytics  
Fiera Real Estate  
Toronto, Ontario**

Michael joined Fiera Real Estate in 2012 and has 17 years of experience in the investment industry. As vice president, research and predictive analytics, he is primarily responsible for leading and implementing the firm's research program by providing top-down investment and economic research to support the executive team with respect to strategic investment-related decisions. Michael provides critical insight and support to the portfolio strategies and analytics program by identifying sources of market risk and return in the firm's various mandates and creating robust strategies to mitigate risk. He launched his career in 2007 through financial advisor roles at leading Canadian financial institutions. His duties included creating lending and investment solutions for high-net-worth clients. In 2007, Michael graduated with a bachelor's degree in business administration from the University of Western Ontario, and he subsequently earned the CFA charter in 2012.
